Ernest Sanchez	Lincoln Heights N.C.	(323)573-4191	

Minutes:

1. Introduction

Ray Araujo introduced City staff. LVNOC members were invited to introduce themselves. Ray distributed the agenda.

2. Proposition K Overview

Ray Araujo provided a brief overview of the Prop K Program. He indicated that the Proposition K: LA for Kids Program was established in Nov 1996 after the Prop K Ballot measure was approved by the LA voters. The approval of this ballot measure authorizes the City to collect up to \$25M in annual assessments for a total of \$750M over 30 years. The annual \$25M funds acquisition of land for parks and development of capital projects for youth recreational and cultural use along with associated administration and maintenance expenses. The Bureau of Engineering (BOE) manages the projects funded by Prop K. Prop K funds 2 types of projects known as "Specified" which were specifically listed in the ballot measure and "Competitive" which are awarded through a competitive process open to the City, other government and non-profit agencies. As part of the project development process, community involvement is required by the Prop K Program. Local Volunteer Neighborhood Oversight Committee (LVNOC) fulfills that requirement. The purpose of this first LVNOC meeting is to introduce the project to the

community and obtain input from the LVNOC members and the community for the design of the project.

3. Project Overview

Ray continued with informing the attendees that the project is a Competitive Project. The scope of work for the park as approved through the competitive process is "Pedestrian Path Lighting" in the amount of \$1,000,000.

4. LVNOC Discussion/ Comments, Public Comments

- The LVNOC recommended lighting around the lake. Response: This will be addressed during design development.
- Keep the historical fabric intact. Response: the historic lighting fixtures that are being replaced will be replaced with equivalent aesthetic to be approved by the Historic Resources Group.
- Provide lighting for the Skate Park. Response: Skate park lighting was not part of the grant scope
- Path should be repaired at Selig Place dead end and Parking lots. Response: PSOMAS has addressed ADA entrance concerns which will be discussed in a moment.
- Provide lighting for safety and security near ball field. Response: This will be addressed during design development.
- Approach USC Medical Center for match funding. Response: The public can work with the Council District and RAP to entertain possibilities for donations for Park Improvements.

5. Project Meeting Dates

- LVNOC Meeting No. 1 – October 29, 2013
- LVNOC Meeting No. 2 – April 22, 2014
- LVNOC Meeting No. 3 – To be determined

6. Next Steps

- Start Pre-Design/Design – October 1, 2013
- Design – To be determined 1 year
- Bid & Award – To be determined 4 months
- Est. Construction Start Date – To be determined
- Est. Construction Time – 6 months

Unless otherwise notified in writing, the Meeting Minutes shall be considered an accurate recording of the discussions. Please write or e-mail any corrections, omissions, or amendments by November 29, 2013 to the preparer.
